PROFESSIONAL SUMMARY

B.Tech Information Technology graduate with hands-on project experience in Java, Spring Boot, microservices, RESTful API development, Hibernate, Spring Data JPA, and MySQL. Strong foundation in object-oriented programming, data structures and algorithms, SQL, debugging, and software development principles. Familiar with API testing, Git, Maven, and Agile methodologies. Eager to contribute to AI-enabled software solutions, distributed systems, and cloud-based application development while continuously learning new technologies.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript (Basic)
Backend Technologies: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful APIs, Microservices
Database: MySQL, SQL Queries, Database Design
Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms, Java Collections, Exception Handling, Debugging
Tools & Version Control: IntelliJ IDEA, Git, GitHub, Maven, Postman
Development Practices: API Development and Integration, CRUD Operations, Code Refactoring, Software Testing Fundamentals, Agile Methodologies, Layered Architecture
Software Engineering: Clean Code, Layered Architecture, API Integration, Logging, Code Reviews, Agile/Scrum

PROJECTS

Product and Order Management System | Java, Spring Boot, Microservices
- Developed backend services for product and order management using Java and Spring Boot within an iterative sprint workflow.
- Designed, documented, and tested REST APIs using Postman to retrieve product details and place orders.
- Integrated services to process product information, handle database operations, and calculate order totals based on quantity and price.
- Managed version control and conducted collaborative code reviews utilizing Git and GitHub.

Clothing Store Application | HTML , CSS , JavaScript
- Developed a responsive clothing store application to support product listing and store-related user operations.
- Used HTML and CSS to structure clean frontend functionality and enhance customer-facing design.

EDUCATION

Bachelor of Technology (B.Tech) – Information Technology | Paavai Engineering College | 2025 | CGPA: 7.6/10

INTERNSHIP

Eesan IT Solutions (Bangalore) – Full Stack Development Intern
- Developed and maintained e-commerce application features using Java and SQL.
- Implemented Backend business logic and CRUD operations for managing products and customer – related data.
- Wrote SQL queries to retrieve, insert, update, and delete data in the database.
